

MOMENTUM

Advisory | Innovation | Outsourcing | Integration

About Us

Momentum is an independent organization with a goal to create positive social change globally. We work with governments, businesses, investors, and development agencies to develop models. These models focus on achieving real-world change through digitization and systems integration in areas such as social, economic, governance, and physical development.

We specialize in providing simple solutions for the complex challenges facing the global economy, particularly in developing countries. We are known for our effective management systems and successful execution of complex projects around the world, including those for leading development agencies and governments.

As an innovative and forward-thinking company, we are constantly exploring new approaches to market adaptation and building staff capabilities to deliver exceptional results. Our core values of Client focus, Clarification, Creativity, Change, Confirmation, Continuation, and Closure make us a reliable and trusted partner. At Momentum, we have achieved commendable corporate success thanks to our decentralized organizational structure, applied across all disciplines and regions.

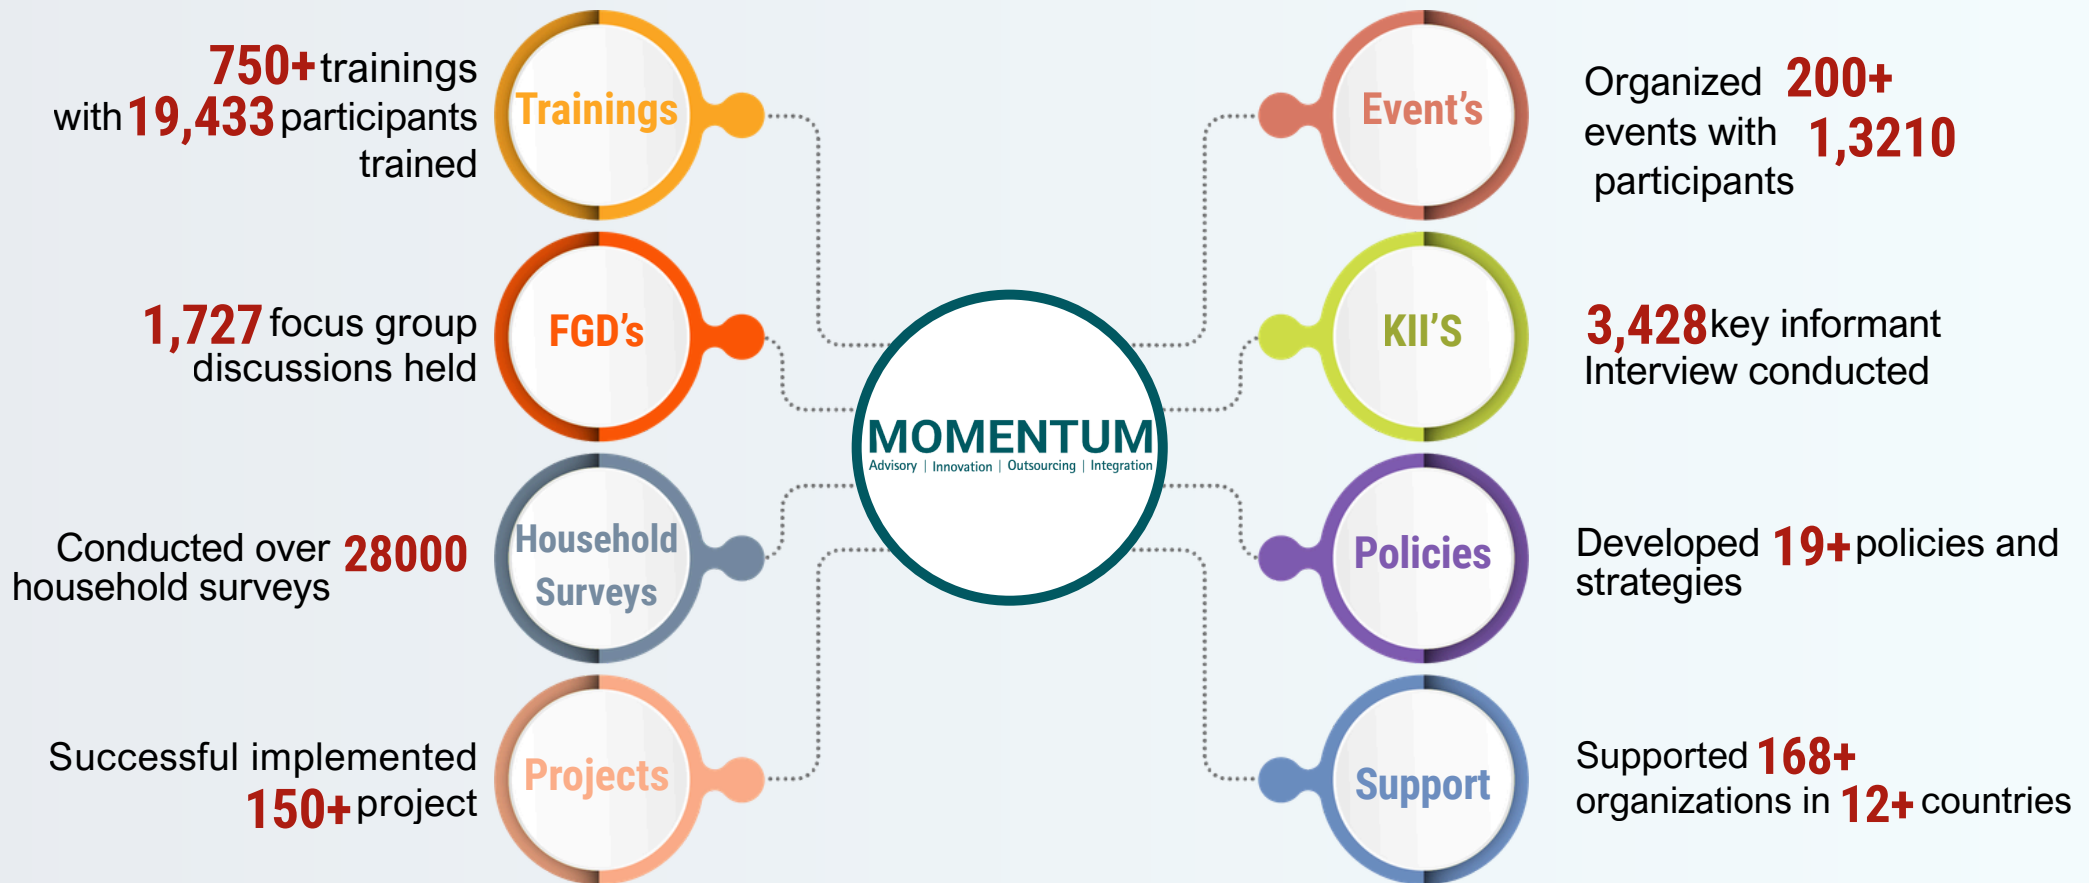

Vision

Ensuring a Performance

Mission

Our goal is to offer top-notch services at the best prices, making us the go-to choice for quality and value.

What We've Achieved So Far

Sectoral Pillars

**Climate change &
Environment**

**Education
& Skill
Development**

**Agriculture
& Rural
Development**

**Social
&
Behavior Change**

**Health
&
Nutrition**

**Humanitarian
Assistance**

**Gender Equality and
Social Inclusion (GESI)**

**Monitoring

CLIMATE CHANGE & ENVIRONMENT

Our Work in Climate change and Environment

ESG Strategy & Implementation

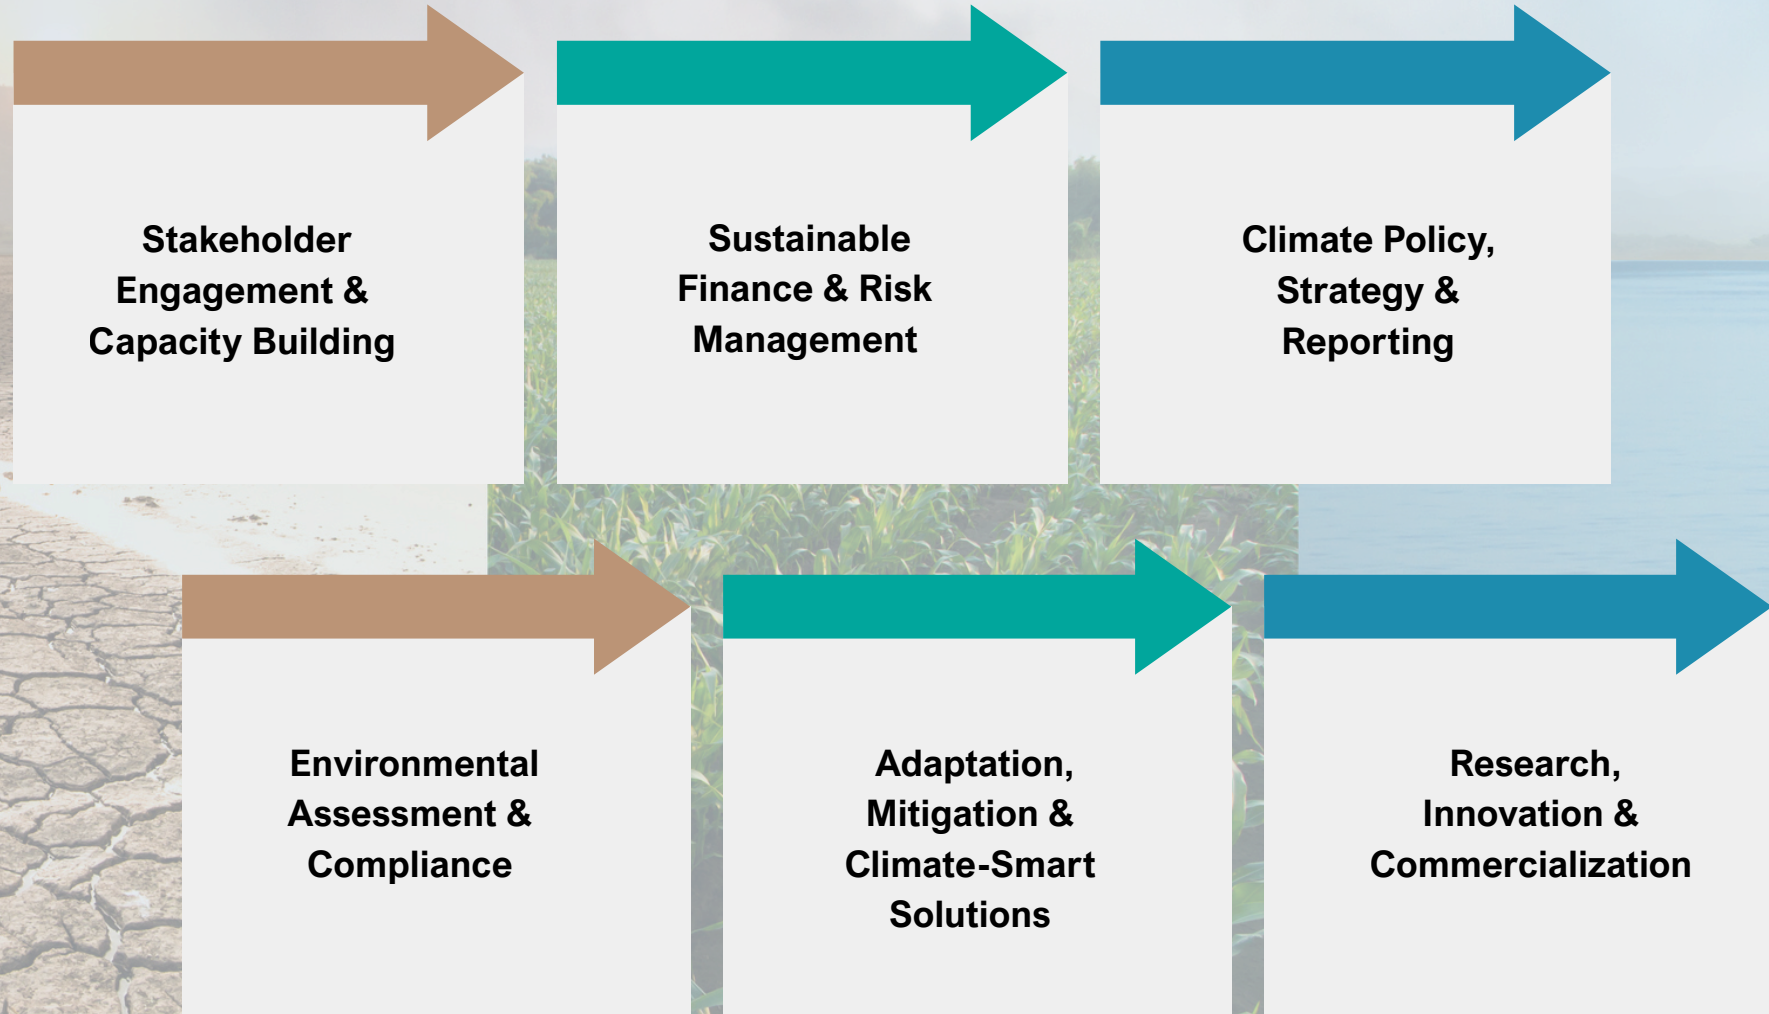

Carbon Accounting, GHG Management & Decarbonization

Carbon Market Services

Climate Data, Digitization & Analytics

Climate Change & Sustainability Advisory

Regulatory Compliance & Reporting

ESG Strategy & Implementation

- **Strategy Development**

Develop ESG frameworks and corporate sustainability roadmaps tailored to institutional goals. Integrate ESG principles into corporate governance, investment analysis, and supply chain management.

- **Assessment**

Conduct ESG baseline assessments and risk analyses aligned with global frameworks (GRI, SASB, IFRS S1/S2, SECP ESG Guidelines). Identify material issues, sustainability priorities, and sector-specific ESG risks.

- **Implementation & Integration**

Integrate ESG practices into operational and decision-making systems. Develop sector-based policies, reporting structures, and performance indicators.

- **Monitoring & Reporting**

Apply data-driven ESG monitoring dashboards and analytics systems. Support ongoing reporting, audit readiness, and disclosure to investors and regulators.

- **Capacity Building**

Conduct targeted ESG training and awareness programs for leadership and operational teams.

Carbon Finance, GHG Management & Decarbonization

- **Baseline Development**

Measure and analyze organizational GHG emissions to establish a verified carbon footprint baseline.

- **Carbon Accounting & Inventory**

Prepare corporate GHG inventories in compliance with ISO 14064 and national inventory standards.

- **Reduction Strategy**

Design decarbonization pathways and operational roadmaps with measurable targets and deadlines.

- **Performance Monitoring**

Track and report progress toward emission reduction milestones and compliance with CBAM and national NDCs.

- **Carbon Neutrality Support**

Facilitate achievement of carbon neutrality goals through offsetting and internal efficiency programs.

Carbon Market Services

- **Project Identification & Design**

Identify eligible mitigation projects for participation in voluntary or compliance carbon markets.

- **Baseline & Quantification**

Conduct baseline scenario analysis and GHG emission reduction quantification.

- **Validation & Registration**

Prepare project documentation (PDDs) and facilitate validation and registration with Verra (VCS), Gold Standard, or ISO 14064 frameworks.

- **Monitoring, Reporting & Verification (MRV)**

Develop MRV systems and oversee third-party verification. Develop and manage MRV systems, ensuring independent verification.

- **Credit Issuance & Trading**

Support issuance of carbon credits and facilitate market access, trading, and investment mobilization.

Climate Data, Digitization & Analytics

- **System Design**

Develop integrated digital systems for ESG, climate, and environmental data management.

- **Data Collection & Automation**

Enable automated data gathering, validation, and analytics to improve accuracy and auditability.

- **Dashboards & Visualization**

Build GHG tracking tools, ESG dashboards, and climate risk monitoring platforms.

- **Reporting & Compliance**

Generate reports aligned with investor, disclosure, and audit requirements.

Climate Change, Early Warning System & Sustainable Advisory

- **Risk & Vulnerability Assessment**

Conduct climate risk assessments and vulnerability mapping for sectors and communities.

- **Resilience Strategy Development**

Design climate resilience frameworks and adaptation pathways tailored to national or sectoral vulnerabilities.

- **Decarbonization & Net-Zero Planning**

Develop mitigation roadmaps consistent with global net-zero targets.

- **Nature-Based Solutions**

Integrate Nature-based Solutions for ecosystem restoration, biodiversity protection, and community resilience.

- **Disclosure & Transparency**

Support compliance with TCFD, CDP, and ISSB frameworks for climate-related financial disclosures.

Regulatory Compliance & Reporting

- **Gap Assessment**

Conduct ESG and climate compliance gap analyses against national and international regulations.

- **Policy Alignment**

Align projects with SECP ESG Guidelines, NDC targets, Paris Agreement commitments, EU CBAM, and CSRD frameworks.

- **Disclosure & Assurance**

Develop sustainability reports compliant with GRI, IFRS S1/S2, and ISSB standards.

- **Risk Integration**

Embed climate risk management into strategic and operational planning processes.

Collaboration, Stakeholder Engagement & Capacity Building

- **Stakeholder Mapping & Strategy**

Identify and engage key partners including governments, financial institutions, academia, and civil society.

- **Program Design**

Co-develop participatory sustainability programs promoting equity, inclusion, and gender responsiveness.

- **Training & Workshops**

Deliver customized capacity-building programs on climate risk management, ESG integration, and sustainable finance.

- **Collaboration Networks**

Facilitate partnerships and dialogues to promote systemic sustainability innovation.

Sustainable Finance & Risk Management

- **Climate Risk Assessment**

Analyze climate-related financial risks and opportunities for corporate and institutional projects.

- **ESG-Linked Finance**

Design and implement frameworks for green and sustainability linked financing solutions

- **Sustainability risk assessment**

Evaluate environmental, social and climate related factors that could affect investment decisions.

- **Adaptation Finance Planning**

Develop strategies and proposals to attract adaptation funding from global and regional climate finance mechanisms.

Climate Policy, Strategy & Reporting

- **Policy Research & Development**

Draft climate smart policies aligned with national and global sustainability objectives.

- **Strategic Integration**

Incorporate climate targets into institutional, sectoral, and regional planning frameworks.

- **Reporting & Monitoring**

Prepare sustainability and climate policy reports consistent with GRI, IFRS, and ISSB guidelines.

Environmental Assessment & Compliance

- **Baseline & Scoping**

Conduct site identification, baseline environmental studies, and stakeholder consultations.

- **Impact Assessment**

Carry out Environmental Impact Assessments (EIA/IEE) and audits in compliance with Pak-EPA and provincial standards.

- **Management & Mitigation**

Develop environmental management plans, remediation strategies, and mitigation measures.

- **Monitoring & Implementation**

Implement and track environmental performance, ensuring operational compliance and social acceptability.

Mitigation, Adaptation & Climate-Smart Solutions

- **Strategies**

Develop practical adaptation and mitigation strategies for urban, agricultural, and industrial sectors.

- **Implementation**

Promote renewable energy integration, sustainable water management, and climate smart agriculture.

- **Ecosystem & Community Focus**

Prioritize ecosystem restoration and community resilience through nature-based interventions.

- **Performance Tracking**

Monitor project outcomes and quantify climate and social benefits.

Research, Innovation & Communication

- **Gap Assessment**

Conduct ESG and climate compliance gap analyses against national and international regulations.

- **Policy Alignment**

Align projects with SECP ESG Guidelines, NDC targets, Paris Agreement commitments, EU CBAM, and CSRD frameworks.

- **Disclosure & Assurance**

Develop sustainability reports compliant with GRI, IFRS S1/S2, and ISSB standards.

- **Risk Integration**

Embed climate risk management into strategic and operational planning processes.

Our Projects

- **Long-Term Agreement (LTA) with UNICEF for Enabling Environment (2018 - UNICEF):** Momentum provided long-term technical assistance to UNICEF under LTA, supporting policy development, system strengthening, and logistical coordination in the WASH, health, nutrition, and climate change sectors. This work enhanced institutional capacities, improved service delivery, and promoted resilience across targeted regions in Pakistan.
- **Mapping of Water Sector Regulations, Policies, Strategies and Guidelines Under WASH REG** approach for UNICEF Pakistan.
- Developing a Comprehensive Advocacy Campaign Strategy with Action Plan for Engaging Youth in **Nationally Determined Contributions (NDCs)** on Climate Change in Collaboration with MoCC for save the Children, Pakistan
- **Development of Food Fortification Act & Business Rules (2020 – NI Canada):** Momentum supported the development of national food fortification laws, standards, and business rules, enabling widespread access to essential micronutrients. This initiative helps protect children from preventable diseases, supports healthier pregnancies, and reduces long-term economic losses.

Our Projects

- Baseline Survey for GCF Project Transforming the **Indus Basin with Climate Resilient Agriculture and Water Management**
- Mid-Term Review of the **Climate Advocacy Coordination for Resilient Action** in Pakistan for German Red Cross and Pakistan Red Crescent Society
- Development of a Microfinance Product for Youth Collaboration with National Rural Support Programme (NRSP)
- **Disaster Management** Training Program for CHEF International
- **Effective Engagement of Youth for Meeting NDC Goals** to Address Climate Change
- Direct Implementation- Completing The 2018 Glass National Survey For Pakistan
- Development Designing & Dissemination ATLAS for KPK and Balochistan FAO
- Development of **SDGs Accelerated Implementation Framework** for Education, Health, Agriculture & Energy Report for SDG support unit KP
